

cherry BIO

Great quality organic cherry created by vacuum drying. This modern and advanced technology produces fruit that is uniquely crunchy, but also has a better taste, appearance and texture than freeze dried. The fragrance is also much more pronounced, as well as the natural and long-lasting colour characteristic of cherry.

used for:

muesli
breakfast products
confectionery
bakery products
foods for children over 3 years of age

snacks
ice cream & desserts
prepared meals
survival food
food for animals

advantages:

high quality
